IT PARTNERS, INC

EXPERIENCE MATTERS

We provide our Government customers with innovative, scalable, and secure technology solutions to improve operations, and create efficiencies in a cost-effective manner.

CAPABILITIES STATEMENT

IT Partners, Inc. (ITP) is an established Woman-Owned Small Business (WOSB) professional services firm located in Herndon, VA. Founded in 1993, ITP has a long-standing reputation of providing high-quality Mission Support, SAP Services, Software Development and Integration, Modernization and Transformation, and Cybersecurity support to our Defense, Federal Civilian, and Intelligence Community customers. Our programs are managed by our robust Service Delivery Office, that has a history of providing innovative, multi- layered governance models, and an industry-best-practices driven approach guided by PMI PMBOK, ISO 9001:2015, and CMMI Level 3 for Services and Development. We help our customers innovate, realize cost savings, and operational efficiencies by leveraging their existing IT investment and extending its capabilities while utilizing cutting-edge solutions in a technology agnostic environment.
